

TECHNICAL ADVISORY

DIVISION OF MOTORIST SERVICES

To:	Tax Collectors and License Plate Agents	
Subject:	Inventory Reduction for Regular Series License Plates	
Advisory Date:	10/31/12	Implementation Date: Immediately
Advisory Number:	R12-13	

In preparation for the redesigned license plate, the Department is asking the counties to assist in reducing their inventory of the RMR/Motto, RGS/Sunshine State, and RGR/County license plates. With our unified agreement that the license plate redesign is important for the State of Florida, paring down on existing inventory levels will allow us to more effectively prepare for the replacement of the license plates. We will be monitoring county inventories to ensure we avoid overages as we move forward in our redesign efforts.

We are recommending that all tax collector offices and license plate agencies conduct an audit of your inventory. This should have just been done as part of the year end auditing requirements. This will help all of us prepare to allow transferring license plates between agencies and counties. We also recommend that counties begin issuing RGR/County license plates as the default since these license plates cannot be transferred between counties.

We sincerely appreciate your cooperation. If you have any questions or need additional information, please contact the Inventory Control Section at (850) 617-2809.
