

TECHNICAL ADVISORY

DIVISION OF MOTORIST SERVICES

DATE: September 23, 2014	Technical Advisory RS/TL14-014
SUBJECT: Redesigned Florida State University Specialty License Plates	

Overview:

At the request of the organization, the **Florida State University** specialty license plate is being redesigned, and we need your help using the existing inventory before the new license plate becomes available.

Details:

If an agency in your county needs this license plate type before the new plate is available, please contact other agencies in your county, and transfer plates as necessary.

If no license plates are available, contact Inventory Control at (850) 617-2809. Inventory Control will fill orders from Central Supply or transfer from county-to-county. We will approve and manufacture personalized license plate orders as usual.

Conclusion:

Thank you for helping us reduce the license plate inventory before it becomes obsolete. If you have any questions or need additional information, please contact the Field Support Center.
