Dear Reader,

Thank you for your interest in the 2010 Florida Traffic Crash Statistics Report. The Department of Highway Safety and Motor Vehicles is committed to providing the safest possible driving environment for the millions of residents and visitors that travel in our beautiful state each year.

This report is compiled from long form traffic crash reports submitted by state and local law enforcement agencies. The Department summarizes all the submitted information for this report. In general, the 2010 crash statistics show a positive trend in decreases in fatalities on our roadways and in some instances to historic lows.

- Fatalities as a result of traffic crashes on Florida roadways decreased between 2009 and 2010 by 4.6% going from 2,563 to 2,444 respectively.
- Over the past five years, fatalities have dropped every year from 2005 with 3,533 to 2010 with 2,444, which is a 30.8% reduction.
- State Mileage Death Rate (the number of deaths per 100 million miles traveled) decreased to 1.25 deaths per 100 million vehicle miles traveled in 2010 and is the lowest since the rate has been calculated.
- Motorcyclist and passenger fatalities decreased between 2009 and 2010 by 4.7% from 402 to 383 respectively.
- Bicyclist and passenger fatalities decreased between 2009 and 2010 by 24% from 99 to 76 respectively.
- Pedestrian fatalities increased between 2009 and 2010 by 3.5% from 482 to 499 respectively.
- Fatalities of teen drivers and passengers decreased between 2009 and 2010 by 5.9% from 153 to 144 respectively.

We recognize that these statistics are influenced by various factors, including economic conditions, increased safety of vehicles, and fewer vehicles on the road. However, they are also a testament to Florida's strong emphasis on traffic safety by state and local law enforcement agencies, advocacy groups, and businesses throughout Florida.

While much of the news is encouraging, there is still much to be done. Traffic crashes are largely avoidable, and those that result in personal injury or loss of life are too often the unacceptable results of poor preparation and decision making. We are focused on utilizing partnerships in enforcement and education to change driving behaviors and save lives. Should you need additional information or assistance with this report, please contact us at [crashfacts@flhsmv.gov](mailto:crashfacts@flhsmv.gov).

Florida Traffic Crash Reporting Form (Old Form)	
Florida Traffic Crash Reporting Form (New Form)	

The information contained in this Traffic Crash Statistics booklet is extracted from law enforcement agency long-form reports of traffic crashes in which a motor vehicle is involved. A law enforcement officer must submit a long form crash report when investigating:

- Motor vehicle crashes resulting in death or personal injury, or
- Motor vehicle crashes in which one or more of the following conditions occur:
  - Leaving the scene involving damage to an attended vehicle or property (Section 316.061 (1), F.S.), or
  - Driving while under the influence of alcoholic beverages, chemical substances, or controlled substances or with an unlawful blood alcohol level (Section 316.193, F.S.).

An investigating officer may report other traffic crashes on the long-form crash report. In particular, applicable statutes specify an officer's discretion to submit a long-form report in crashes where a vehicle is rendered inoperable to the degree that a wrecker is required to remove it from traffic. However, only those crashes that meet the criteria above are included in this report.

January 1, 2011, the Department began using a new and improved long form crash form. The data in this report comes from the previous long form crash report and the new long form crash report. In October of 2010, a few agencies began using the new crash report form. Both forms are attached to the end of this report.

The following terms are defined as they apply to the crash data presented in this publication. These definitions may differ from legal or other uses of the same terms.

<b>Alcohol-related traffic crash</b>	A crash involving a driver and/or pedestrian for whom alcohol use was reported (does not presume intoxication).
<b>All-Terrain Vehicle (ATV)</b>	A small open motorized vehicle with three or four wheels, designed for off-road use with a seat that is straddled and handlebars for steering.
<b>Bicycle</b>	A vehicle propelled solely by human power or a motorized bicycle propelled by a combination of human power and an electric helper motor rated at 200 watts or less (this term does not include a vehicle with a seat height less than 26 inches from the ground when the seat is adjusted to its highest position, or a scooter or similar device).
<b>Bicyclist</b>	The driver of a bicycle. A passenger on a bicycle is considered a vehicle passenger. A bicyclist is considered a non-motorist.
<b>Commercial motor vehicle (CMV)</b>	Means any motor vehicle or motor vehicle combination used on the streets or highways which: <ol style="list-style-type: none"> <li>1) has a gross, declared, or actual weight rating of 26,001 pounds or more;</li> <li>2) is designed to transport more than 15 persons, including the driver; or</li> <li>3) is transporting hazardous materials and is required to be placarded.</li> </ol>
<b>Driver</b>	Unless otherwise indicated, the operator of a motor vehicle or bicycle. Driver data typically exclude uninjured persons presumed to have been operating hit-and-run, phantom, or properly parked vehicles.
<b>Drinking driver</b>	Indicates investigating officer's judgment on whether a driver was using alcohol. Codes include alcohol-under influence, alcohol and drugs-under influence, and had been drinking.
<b>Fatal traffic crash</b>	A traffic crash that results in one or more fatalities within thirty days of occurrence.
<b>Harmful events</b>	Identifies the first and subsequent harmful events for each vehicle in a traffic crash.
<b>Injury</b>	Hurt, damage, or loss sustained by a person as a result of a traffic crash. Definitions for the various injury levels are as follows:
<b>Injury crash</b>	A non-fatal traffic crash that results in one or more injuries.
<b>Incapacitating injury</b>	Any visible signs of injury from a crash and person(s) had to be carried from the scene.

<b>Non-incapacitating injury</b>	Any visible injuries such as bruises, abrasions, limping, etc.
<b>Possible injury</b>	No visible signs of injury but complaint of pain or momentary unconsciousness.
<b>Total injury</b>	The sum of possible, non-incapacitating, and incapacitating injuries.
<b>Long form</b>	Refers to a crash report prepared by a law enforcement officer where there has been a crash resulting in bodily injury, the death of a person or where a specified criminal offense has been committed.
<b>Low Speed Vehicle</b>	Any vehicle traveling between 1 and 10 mph that does not involve a bicycle.
<b>Moped</b>	A motor-powered cycle with a pedal-activated motor and a maximum of two brake horsepower.
<b>Motor vehicle</b>	Any motorized vehicle not operating on rails.
<b>Motorcycle</b>	A motor vehicle, with a seat or saddle for the driver's use, traveling with no more than three wheels in contact with the ground, excluding a tractor or a moped.
<b>Motorcyclist</b>	The driver of a motorcycle. A passenger on a motorcycle is considered a vehicle passenger.
<b>Short form</b>	Refers to a crash report in which the threshold of the long form does not apply. Therefore, a long form report is not prepared. In crashes where apparent damage is less than \$500, the law enforcement officer shall provide each party involved in the crash a driver exchange form prescribed by the state, to be completed by each party of the parties.
<b>Traffic crash</b>	A crash involving at least one motor vehicle on a roadway that is open to the public.
<b>Traffic fatality</b>	The death of a person as a direct result of a traffic crash within thirty days of the crash occurrence.
<b>Vehicle and/or property damage only crash</b>	Loss of all or part of an individual's vehicle and/or property resulting from a traffic crash not involving injury to a person.
<b>Vehicle occupants</b>	Drivers and passengers of automobiles, vans, trucks, buses, and motor homes.

\* Both tables refer to Seat Belt Equipped Vehicles (SBEV) which include vehicle types: automobiles, vans, trucks, motor homes, and buses.

Buses seating over 15 passengers are no longer considered a Seat Belt Equipped Vehicle as they were in the past.

**NOTE:** In 2010, Florida experienced 1,450 traffic deaths of drivers and passengers in SBEV. The tragic note of this, is 54%, or 777 of these people killed were not wearing seat belts.
