TO: All Fire and Property and Casualty Companies
Authorized to Issue Motor Vehicle Policies in Florida

FROM: Deborah Todd, Chief
Bureau of Financial Responsibility

SUBJECT: Programming Changes needed for Electronic SR21-Verification
Process and changes to manual verification paper list

Effective immediately, changes in identifying BIL/PDL limits need to be made to distinguish between lower limits (10k/20k/10k) and higher limits (100k/300k/50k) for convictions.

The FR DUI Conviction cases will begin with an 'X', for example 'X12345678'. The 'X' will now indicate it is a DUI Case requiring the verification of higher limits of 100k/300k/50k. We will also continue to send Non-DUI related Conviction '4' Cases requiring verification of lower limits of 10k/20k/10k. Examples of Conviction "4" Cases are: Vehicular Homicide, Insurance Fraud, Manslaughter, etc.

In order to put this in place, we will print the FR DUI cases that need to be verified to a manual verification paper list until companies can individually program for the new 'X' Case Type. Once a company is ready to test, you can email InsFTP@hsmv.state.fl.us for further assistance.

Electronic Transaction Type 21 will now have the following description:

Filed Position 70 – 78 will now be an alphanumeric field.

- Field Position 70 for PIP and PDL must be 2, 7, 8, or 9
- Field Position 70 for BI and PDL 10k/20k/10k limits must be 1, 3, 4, 5, or 6
- Field Position 70 for BI and PDL 100k/300k/50k must be X
