SUBJECT: Florida Financial Responsibility and Insurance Programs Redesign Update

On September 18, 2013, you were originally informed of our upcoming deployment scheduled for October 27, 2013. We have one more change that will be implemented on that date.

In order to accommodate our internal sanction creation process for registration sanctions, changes were required to be made on the 'C' verification files. Effective October 27, 2013, you will potentially receive a 'C' verification file once a day in addition to the 'C' verification file you receive on Monday (on Monday you may receive two). These verifications will be for our newly deployed registration sanctions and will be marked with FR08 in position 70-73. These files will have the standard 'C' verification file naming convention and will be in the same format as currently. These files will be sent in flat format to all companies until total XML conversion.

Eventually, our goal as we deploy more cases is to eliminate the large Monday 'C' verification file and just send regular verifications daily. As a reminder, the law allows 20 days for a response.

When the transaction 12 verification is sent for the new registration sanctions in your daily file, they will be split and worked separately through the new system, the same as the transaction 10s. Like the transaction 10s, for the FR08 verification, you will receive only the errors back in your output file.

It is important that you review our website to seek clarification for any questions that you may have before contacting us. We feel confident that the majority, if not all of your questions, can be answered at <http://www.flhsmv.gov/FRManualFTP/>. This information will be updated to the website.

Please direct all redesign questions to FRRedesign@flhsmv.gov. Please be sure to include your username/account name (01234FTP) in the email subject line specifically so that we can identify your company account and process accordingly.

Thank you for your patience.
